Project Name: Student Enrollment & Course Management System (SECMS)

SAYS	THINKS
• I need to manage student enrollments efficiently. • I want faster approval and registration processes. • I need accurate and centralized student data.	• Manual work may cause errors and duplicate entries. • Approval delays may affect students. • A centralized Salesforce system can make the process easier.
DOES	**FEELS**
• Rechecks student and enrollment data. • Follows up manually for approvals. • Uses multiple spreadsheets and emails to manage information.	• Concerned about double bookings and revenue loss. • Frustrated by duplicate entries and approval bottlenecks. • Relieved when automation and dashboards reduce manual effort.
