Data Flow Diagram

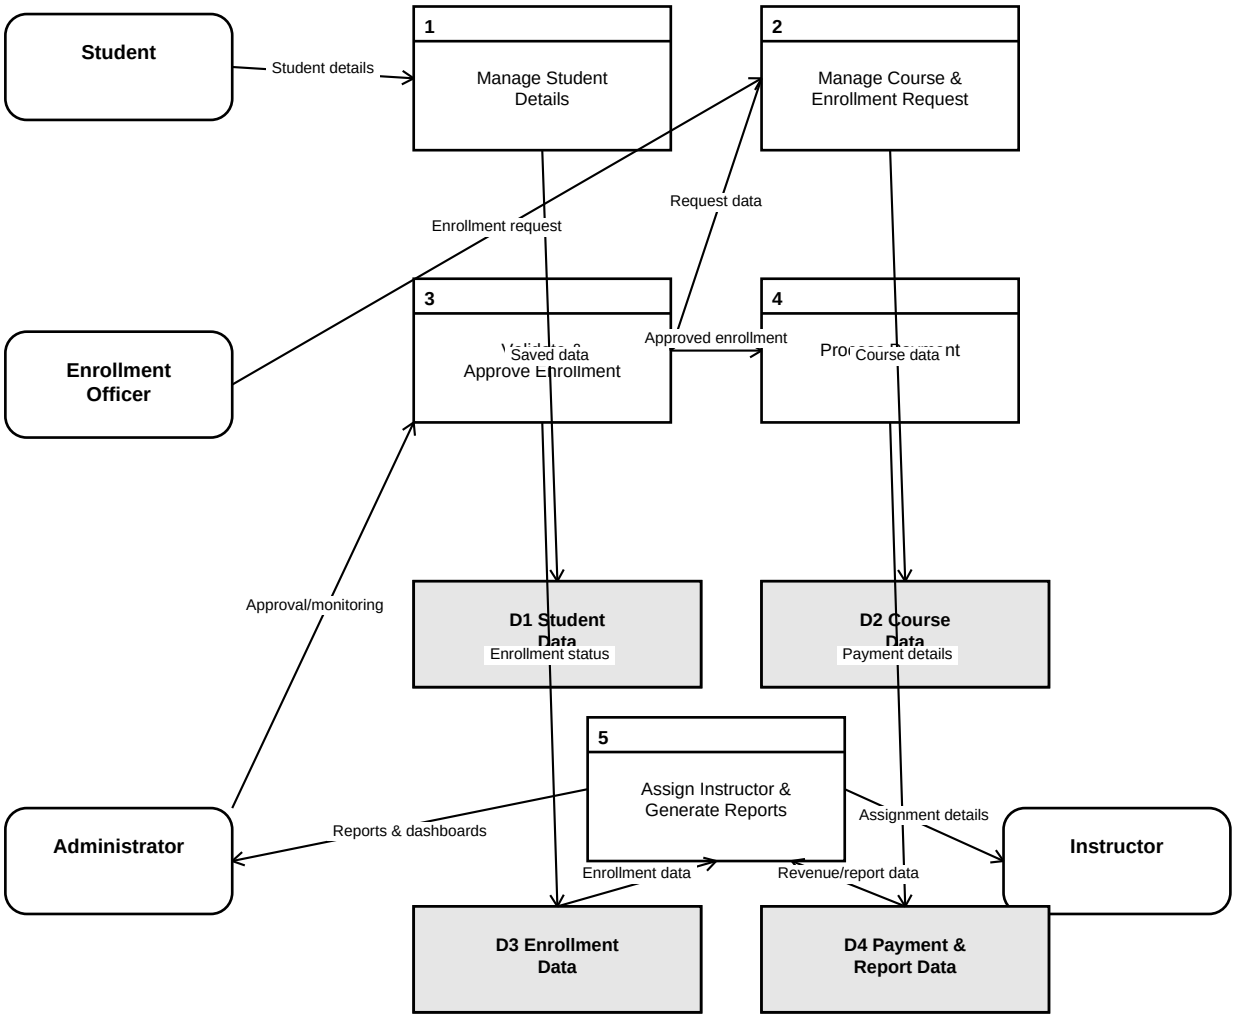
The DFD shows how student, course, enrollment, approval, payment, instructor and reporting data moves between external entities, system processes and Salesforce data stores in the SECMS application.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	A person, organization, or system outside the project that sends or receives data.
Rectangle with numbered header	Process	An activity that transforms incoming data into outgoing data.
Rectangle (solid fill, no number)	Data Store	A place where data is held for later use.
Labeled arrow	Data Flow	The movement of data between entities, processes, and data stores, labeled with the data being passed.

Completed DFD – Student Enrollment & Course Management System



External entities, processes, data stores and labeled data flows are shown using the template legend.

Data stores used: Student Data, Course Data, Enrollment Data, and Payment & Report Data. The flow represents the core SECMS enrollment lifecycle from student registration and course selection through validation, approval, payment, instructor assignment and reporting.
