Project Executable Files

Field	Details
Date	30 September 2026
Team ID	6ab2a81f009dcca3125ab2e5
Project Name	Student Enrollment & Course Management System (SECMS)
Project Type	Salesforce Administrator with Automation
Maximum Marks	3 Marks

Team Members

S.No	Team Member Name
1	M. Gayathri
2	I. Geetha
3	S. Harini
4	I. Harini Sri
5	S. Hemavathi

Step 1: Submission Checklist

S.No	Item to Submit	Submitted
1	Complete source code (all files and folders)	N/A – Salesforce configuration project
2	README / Setup Guide	Yes – setup/implementation steps are documented
3	requirements.txt / package.json / dependency file	N/A – no external package dependency
4	Database schema / seed files (if applicable)	N/A – Salesforce Custom Objects are used
5	Environment configuration file (.env.example or similar)	N/A – Salesforce cloud configuration
6	Deployed application URL (if hosted)	Yes – Salesforce Developer Org URL provided
7	APK / Executable binary (if applicable)	N/A – web/cloud Salesforce application
8	Dockerfile / Containerization config (if applicable)	N/A
9	Test files and test results	Yes – functional/performance testing evidence documented
10	Demo video or walkthrough (if required)	Yes – demo video link provided

Step 2: File / Folder Structure

S.No	Project Component	Details
1	Salesforce Custom Objects	Student__c, Course__c, Instructor__c, Enrollment__c
2	Fields & Relationships	Student, Course, Instructor and Enrollment fields with lookup relationships
3	Validation Rules	Student email validation; Fees must be paid before approval
4	Approval Process	Approval_Enrollment_Request
5	Flows	SetEnrollmentDate; Send Email When Approved; AutoAssign_Instructor; Change_Owner_To_Instructor
6	Lightning App	Student Enrollment & Course Management
7	Reports	Students by Status; Enrollments by Course; Pending Approvals; Revenue Report
8	Dashboard	Student Management Dashboard
9	Security	OWD settings, Profiles and Permission Sets
10	Testing Evidence	Validation, approval, flow, reports, dashboard and owner proof

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	https://orgfarm-27651f0434-dev-ed.develop.lightning.force.com
Login Credentials (Demo)	Not provided in the project document – use authorized Salesforce credentials
Platform / Hosting	Salesforce Lightning / Salesforce Cloud
Provider	Salesforce
Repository Link	https://github.com/[YourUsername]/Student-Enrollment-System
Demo Video Link	https://drive.google.com/file/d/1qAhAmp5QUOpQooPwYtHvH486TBdd8-Tb/view?usp=sharing

Step 4: Run Instructions

Step	Instruction
1	Open the Salesforce Developer Org using the provided deployed URL.
2	Log in using an authorized Salesforce account.
3	Open the Student Enrollment & Course Management Lightning App.
4	Use the Student, Course, Instructor and Enrollment tabs to create and manage records.
5	For an enrollment, enter Student, Course and required details; the Enrollment Date can be populated automatically by Flow.
6	Use the enrollment approval process for records with Requested status.
7	Verify automated instructor assignment based on course category.
8	Open Reports and Dashboards to verify enrollment, student, approval and revenue information.
9	Use the supplied testing evidence to verify validation rules, flows, approval, reports and dashboard behavior.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	Salesforce dependency and licensing cost	Requires Salesforce environment and applicable access/licensing
2	Initial configuration effort is required	Follow the documented Salesforce setup and implementation steps
3	Training may be required for non-technical staff	Provide basic user training for Enrollment Officers, Instructors and Administrators
4	GitHub repository contains placeholder [YourUsername] in the supplied document	Replace with the actual repository username/link before final submission
5	Demo login credentials are not included in the supplied project document	Provide authorized evaluator credentials separately if required

Prepared from the supplied SECMS Salesforce project documentation and the Project Executable Files form.
